

Growth Year-Round E15 Toolkit

Congratulations – #E15YearRound is a reality!

Thanks to your continued dedication and support, year-round sales of E15 has finally been approved by the EPA – fulfilling the President’s promise to help the rural economy.

These sales will provide a much-needed boost to rural communities by opening new markets and creating demand for more than two billion additional bushels of corn annually, while offering drivers an affordable, engine-friendly choice at the pump, no matter the season.

We wanted to help you celebrate this momentous achievement with us. Feel free to copy and paste the posts below into your own social feed and show your excitement for #E15YearRound!

Thank you again for supporting Growth Energy and #E15YearRound - we did it!

	Post Message	Post Image
Post 1	#E15YearRound is here! Drivers across 31 states can choose engine-smart, Earth-kind E15 during the busy summer driving season. Find your nearest E15 station here: https://getbiofuel.com/fuel-finder/	
Post 2	Year-round sales of #E15 will boost the rural economy and give American drivers an affordable, greener choice at the pump during the busy summer driving season. We must ensure that the market for #biofuels remains strong, so American drivers benefit from options at the pump.	
Post 3	Year-round E15 will give farmers a vital market for surplus grain - creating demand for more than 2 billion bushels of corn. Thank you, @realDonaldTrump – please stay focused on delivering for rural America in the months ahead!
