

GROWTH ENERGY

MARKET DEVELOPMENT

Growth Energy, the world's largest organization representing producers and supporters of ethanol, has helped install more than 90 percent of the E15 retail sites currently offering the higher ethanol blended fuel in the U.S.

Our growing market development team stands ready to assist any interested retailers - large or small - with marketing, regulatory, and equipment compatibility questions before adding E15 to their fuel line-up.

- Assisted with more than 1,700 E15 installations nationwide.
- Secured more than \$100 million for E15 infrastructure projects.
- Over a dozen of unique resources available online.

MEET THE TEAM
