

MAKE YOUR VOICE HEARD:

Using the hashtag "#E15Now", we need your help in creating a wave on social media highlighting E15 as a low-cost option to high gas prices and the need for access this summer. Specifically we're looking for:

- Photos of the prices at the pump that reflect lower E15 costs.
- Calls for EPA to issue an emergency waiver so E15 can be sold this summer.

SAMPLE GAS PRICE POSTS:

- Live from [CITY NAME]: E15 is currently \$.XX less than regular, saving us money at the pump. @EPA @EPAMichaelRegan #E15Now
- Filling up with higher blends of biofuels like E15 is saving families money at the pump TODAY amid rising gas prices. @EPA @EPAMichaelRegan #E15Now
- Here in [CITY NAME] biofuel continues to keep prices down at the pump for drivers. If we moved to a nationwide E15 standard, consumers would save over \$12 billion in fuel costs -- every year. @EPA @EPAMichaelRegan #E15Now

SAMPLE E15 WAIVER POSTS:

- With #E15Now, Americans could save more money at the pump and our nation can become more energy independent. Tell Congress today → growthenergy.org/gasprices
- Don't let lower-cost E15 fuel blends disappear from the market on June 1. Demand action from @EPA! growthenergy.org/gasprices #E15Now
- Congress: Urge @POTUS @EPA to issue an emergency waiver and lift seasonal E15 restrictions to protect families from surging fuel costs and combat dependence on global oil markets. #E15Now
