

With the Summer Sale of E15 (UNL88) in Progress, Drivers Across the Country are Seeing Significant Savings

E15 (UNL88), a 15% ethanol blended fuel, is a lower-cost, lower-carbon option at the gas pump.

As a result of the emergency waivers issued in 2022 and 2023, consumers choosing E15 experienced average cost savings of 10-30 cents per gallon in summer 2023, with some locations offering over \$1 off per gallon.

**A NATIONWIDE SHIFT TO E15 (UNL88) WOULD SAVE
\$20 BILLION+ IN FUEL COSTS EACH YEAR.**
