E15 is a Win for American Drivers

Year-round E15 sales would:

- Provide all Americans access to an average fuel **savings of up to \$.30 per gallon**
- Increase corn demand by **2.4 billion bushels**
- Support more than **128,000 new full-time jobs**
- Yield **\$4-6 billion in savings** to taxpayers

Congress must pass the E15 fix to lower prices, strengthen the economy, and give drivers the options they deserve.
