E15 is a Win for American Drivers

Nationwide adoption of year-round E15 sales would:

- Provide all Americans access to an average fuel **savings of up to \$.30 per gallon.**
- Increase corn demand by **2.4 billion bushels.**
- Support more than **188,000 new full-time jobs.**

Congress must pass the E15 fix to lower prices, strengthen the economy, and give drivers the options they deserve.
